

TEXAS ISD PROPERTY WEALTH AND TAX RATE STATUS

INDEPENDENT SCHOOL DISTRICTS ONLY

About This Map

Using spatial statistics and the data provided to us by FLUX, we have identified the optimal zip code where FLUX resources should be concentrated for its next event. That zip code is 15232, which gives us a 99% confidence level in projected attendance if FLUX decides to host in that zip code.

As an added bonus, we identified a space suitable for performance events with lots of green spaces: the Pittsburgh Center for the Arts and Mellon Park.

Limitations of This Map

Accuracy is subject to the limited data available. This does not account for regional mobility or growth since FLUX data used here was originally collected. Also, some addresses were incorrect. While we tried to fix as many as possible, it is possible that one or more may have been missed.
